

# My ECO Barrel™

## Climate LLC developed the ORIGINAL soft-sided rainwater harvesting barrel A 100% BPA-Free Product

**Best Warranty:** 1 year Limited vs. 90-days or less for competing products

**Structurally Superior** to competing products:

- \* **ClimaFabric™** : 0.022in. (.55mm) reinforced UV-resistant PVC fabric with high frequency welded seams vs. competing products at .010in. (.25mm) or thinner and chemical seams
- \* **ClimaStruts™** : one-piece uprights made with our proprietary formula for superior strength and are also UV-resistant also differentiated from competing products
- \* Near-360° double-sewn synthetic dual-way zippers and screened inlet in the lid. Inlet doubles as a vent or overflow if the overflow is used as a hose inlet from a rainwater harvesting pre-filter.
- \* Separate 1/4-turn ball-valve drain, 1/4-turn spigot, and overflow assemblies
- \* Spigot is 10in. (254mm) high so watering cans fit without the need to place barrel on a pedestal
- \* Screen cap filters on overflow, spigot and drain valve inhibit debris from blocking outflow as well as insect or rodent entry into barrel
- \* Drain is threaded and comes with quick-connect insert with O-ring-for quick connection hose
- \* ALL fittings come with dual rubber washers, so no added sealant is necessary

**Highly Portable:** Light-weight; 10lbs. (4.6kg.) shipping weight – not heavy or bulky like competitors

**Foldable Design:** Compresses easily for storage or transport

**Easy Assembly:** Within minutes; no tools required; all parts included; no pedestal required

**Exceptionally Durable:** Aforementioned 0.022in. (.55mm) thick **ClimaFabric™** that is UV-resistant and antibacterial which increases durability with a double-sewn synthetic zipper and corrosion resistant fittings

**Easy Maintenance:** Clean with mild dish soap and sponge; zippered lid facilitates internal cleaning
